Mr. Eric York  
Mine Manager  
Moab Salt, Incorporated  
P. O. Box 1208  
Moab, Utah 84532

Dear Mr. York:

Re: Resolution of Final Approval of Moab Salt, Incorporated's Mining and Reclamation Plan, Cane Creek Mine, M/019/005, Grand County, Utah

Board approval of Moab Salt, Inc.'s Mining and Reclamation Plan was made on November 29, 1989. The mine's surety was approved for \$10,700,000, in the form of a Self Bond. The Division would like to finalize the mine's permit. In order to facilitate this, we must resolve some of the stipulations discussed in the July 11, 1989 tentative approval letter.

The Division's July 11, 1989 tentative approval letter listed several stipulations, all of which have been resolved by the operator except: 1) the question of subsidence monitoring, and 2) the conceptual plan for pond leakage control and storm water runoff. The Division will be making a decision regarding the subsidence monitoring by the end of this week. However, the Division still needs a copy of the conceptual plan and tentative schedule for plan implementation from Moab Salt. This must be sent to the Division before we will be able to finalize the permit. The Division will accept the operator's latest draft version of the conceptual plan with the commitment that when it is approved by the Bureau of Water Pollution Control, the operator will update the plan with this Division.
